

British Science Week, 7th – 16th March, 2025

POSTER COMPETITION

We would like you to make a poster with the theme of
“CHANGE & ADAPT”.

Entries must be in school by **Monday 17th March**

Here are some ideas:

What happens as day changes into night and how do we adapt to this?

Technology is changing all the time. What things do we have today that weren't around when grown-ups were children?

How does our weather change during the different seasons? What does this mean for plants, trees and animals?

Change and adaptation in our world, and beyond.

We will be looking for:

- **Creativity in approach** – think outside the box!
- **Content** – be clear, accurate and informative about a STEM topic
- **Effective communication** – present your theme in an engaging way

There will be certificates, prizes and we will choose 5 posters to be entered into the national competition.

Posters can be A4 or A3 in size. You can use pop-up pictures and use materials such as pencils, paints, crayons and paper to create your poster.
